

CONNECTING THE DOTS FOUNDATION, INC. PRESENTS “THE TREEHOUSE PROJECT” AT CAMP PIONEER

Connecting the Dots Foundation, Inc. has a vision for the **Children** who visit Camp Pioneer, “The Tree House Project”. The tree house is designed to be employed as a facility that gives the camp another tool to attract and install good roots in the youth of our communities, as it has for 75 years. It will include a living area, a meeting area, and a large observation deck.

Camp Pioneer is surrounded by some of the most beautiful arrangements of nature ever created in this area. Majestic trees and a nice body of water help create this beauty. It is located at 119 Camp Pioneer Rd., Pearl, MS. Ron Bingham is the Executive Director of this camp.

This project is **fully underway**. We need support. This project requires construction volunteers and material providers. Refer to the contact information listed below.
